DANSK FORENING FOR KLINISK SEXOLOGI
DANISH ASSOCIATION FOR CLINICAL SEXOLOGY

Copenhagen July 15. 2019

Sexology in Denmark 2018-2019:

Education:
DACS have over the past year been working hard on starting a new sexological education .Initially a course in basic sexology and subsequent the education specialist in sexological counseling. We are very proud to say, that we will start our first class in basic sexology in April 2020.

EFS meeting:
At the time of writing we have agreed on a final agreement with EFS regarding the conference in Aalborg 2020, and we have arranged a meeting in Aalborg the 6. of August and we look forward to signing a contract,
The joined EFS & NACS conference in Aalborg was supposed to be in June, but it might be postponed until October 2020. More information will follow the NACS meeting in Goteborg in September.

The public meeting on Bornholm (Folkemødet)
Denmark has for the last 10 years held an annual public meeting "Folkemødet" on Bornholm. It's a very popular event where people from all over the country meet to talk about different current culturel and political issues. The public meeting has participants from all political parties and NGO`s. This year DACS joined the meeting for the first time in order to facilitate putting sex on the agenda, since we have been "invisible" in the public debate for some years
- and now the time has come to take part in political discussions when it's comes to sex, education, etc.
We were mostly there to take part in debates: discussion about gender identity and religion, LGBT issues, sex education in schools etc. and of course networking. It was a big success and we will be back next year. We were also invited to talk about how to have a good sex-life if you have problems related to circumcision (regardless of reason for the circumcision).

New book:
In Denmark, a new textbook on sexology will be published September 6. 2019.
The title of the book is "Sexologi, faglige perspektiver på seksualitet".
The book is written by clinical professors in clinical sexology Annamaria Giraldi and Christian Graugaard and professor, psychologist Bo Møhl.
The book gives different new perspectives on sexology.

Also, a member of the DACS board, Nina Lildal-Schrøder, has been commissioned to writing three books on sexology. She is currently writing the first one which is on LGBT.

The SEXUS project- a public survey
A large Danish project examines the interaction between lifestyle, well – being, health and sexuality in 75.000 Danes aged 15-89 years. The research results are well on the way, not published yet, but we can tell a little more about the results when we meet in Gothenburg. Feel free to ask us about it!
